Go Beyond

Welcome

Hello There, Explorers!

We would like to welcome you to our 2027 brochure, packed full of information about Go Beyond and showcasing our list of holidays for the year to come. Each year we look back at the previous destinations and wonder how we will top them....and yet again 2026 exceeded our expectations. With new-themed adventures and bucket list countries it has been a truly great year. Our aim is always the same; to offer a wide selection of holidays and activities, allowing as many people the opportunity to travel with us as possible. We just love visiting new countries and we get inspiration from our guests to help shape the year to come.

Along with our Travel Buddies scheme offering individuals or groups the chance to plan bespoke getaways and the launch of our new Beyond Travel Magazine, we really have been busy! We hope that our free supported travel magazine inspires people to get out and see the world with confidence. Also, as in previous years, we have expanded our team of support workers, who all share our values, dedication, professionalism and love of travel to ensure inclusivity for all.

We also continue to tackle our carbon footprint through a sustainability project with the Parc du Verdon, in Provence, France. Through a fruit tree planting scheme, we are offsetting our footprint and tackle ways which reduce our emissions that contribute to climate change. As for the holidays themselves, well, we will leave it up to you to browse through them at your leisure. We sincerely hope you like what you see and maybe we'll be seeing you on one of these trips or on a Go Beyond Buddies holiday in 2027.

Lastly, if you like the artwork on our front cover, check out the artist himself. Stephen Cooper is a London based illustrator and a Go Beyond guest, we are thrilled to showcase his work.

Who are Go Beyond Holidays?

We have been providing supported holidays since 2009. Go Provence, as we were known then, began running supported holidays in Provence, South of France. Over the next decade, Go Provence grew to run holidays all over Europe, from Italy to Iceland, and from Bulgaria to Scotland. In 2020, because of our growth in different destinations, we changed our name to Go Beyond Holidays. We feel that this name reflects our desire to go beyond your expectations in every way.

Go Beyond's Philosophy

The main aspect that sets us apart from other supported holiday companies, is who we are, our team, our personalities and our life journeys. Our characters, and what we believe in are intrinsically threaded through Go Beyond Holidays. We believe 100% in what we have created and our approach with the philosophies we use. Our philosophies are simple:

- Only support guests where needed, using guidance from a completed support questionnaire and our care plans.
- Treat each guest as an equal as we should remember that we all need support in certain areas of our lives.
- Give as much time as we can to our guests and listen a lot. We believe in valuing people, valuing dreams, stories, and futures.
- Our holidays are pitched at a level that is appealing to everyone regardless of their needs.
- Be flexible and adapt to changes that we may have to make that were not planned for.
- Provide clear and regular communication between the care networks of each guest to ascertain the best care plan and risk assessment for the holiday. This will help to create the best holiday possible that is fun, challenging and progressive, yet safe.

Grandeur of Seville

Colour and vibrancy around every corner

13th - 20th February 2027

We're kicking off 2027 with a trip to beautiful Seville in south-west Spain. Located in the Iberian Peninsula it is famous for its year-round sunny climate, stunning architecture, vibrant street life, oranges and flamenco dancing...and we'll be experiencing all of these! Once in Seville, we'll make our way to our accommodation for the week, the Hotel Bellavista. Situated just outside the central city it is the ideal base for us to start our week of discovery, beginning with visits to two UNESCO world heritage landmarks that lie side by side. The Royal Alcázar, is Europe's oldest active Royal Palace, originally built as a Moorish fort in the 10th century, it still stands proudly and remains one of the official residences of The Spanish Royal Family. Then it's onto the cathedral of Seville with its famous tower - La Giralda, which is the largest Gothic cathedral in the entire world! Our itinerary also sees us visiting another incredible piece of architecture, in the form of Setas de Sevilla.

Translated, this means Mushrooms of Seville, and when you see it, you'll understand! It is the world's largest timber structure and hosts several floors boasting a plaza, a museum, a market and panoramic walkways. It is absolutely spectacular and we can't wait to share it with you! As well as all this, we will explore the city with help of a guided walking tour, along with visits to its famous museum of popular arts, Seville's must see central park, Parque de Maria Luisa, and yes, we'll even be taking in a bit of flamenco dancing – like we were going to miss out on the chance to do that! Why not escape those winter blues and join us in stunning Seville.... Olé!

Italian Football Stadium Tour

Football, pizza, coffee and more...magnifico!

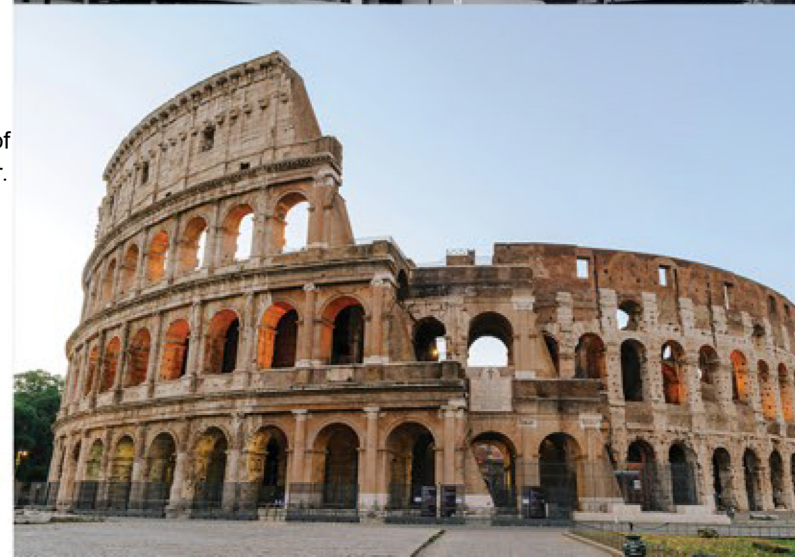

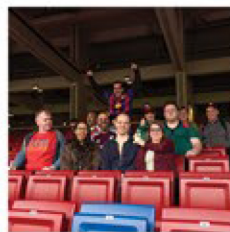

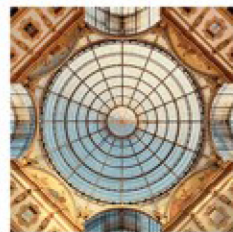

9th - 16th March 2027

Following on from our hugely popular football-themed visit to Spain in 2026, we are offering a similar-style holiday again, but this time in Italy!

We'll begin our week by flying to Rome. Italy's capital city and home to the 70,000 capacity Stadio Olimpico (Olympic Stadium), housing both AS Roma and Lazio. One of our days will be solely dedicated to visiting this breathtaking stadium, with a guided tour and a visit to its football museum. However, there is no way we can travel to this stunning city without discovering a little more of what Rome has to offer, where history greets you at every turn. So we'll be visiting the world famous Roman Coliseum, the Roman Forum and Palatine Hill. But this is just the start of our week!

The second leg of our trip will see us take a 3-hour train journey north to Milan, allowing us to relax in our seats and take in the scenery. Milan is the fashion capital of the world and oozes style, yet it's also the home to Italy's largest football stadium, the San Siro. Home to footballing royalty by way of both AC and Inter Milan, it holds 75,000 spectators and again we'll be gaining entry and shown around courtesy of an organised tour. We will also have a day exploring this fascinating city with a trip to the magnificent Leonardo da Vinci Museum of Science and Technology, named after the famous Renaissance artist, scientist, and inventor.

Oh, and they'll be food too. Wonderful, glorious Italian food!

Japan - The Far East

Land of the Rising Sun with cherry blossom beauty

29th March - 9th April 2027 (Part 1)

Japanese cartoons, comics, movies and of course sakura, or cherry blossom as we know it, is what we think of when we picture Japan. With Go Beyond's first trip to Japan, we're excited to visit 7 cities across the main island of Honshu. After arriving in Tokyo, we'll rest up for an exciting day in the big city the next morning. Asakusa's Senso-ji temple and views of Tokyo Sky Tree are impossible to miss, and you can get your fortune told at the temple. Then, you'll lose yourself in the sparkling art of TeamLab Planets, where sight and touch come together to boggle the mind. On day 5, we will head to neighbouring Yamanashi Prefecture to see cherry blossoms from the Arakura-yama Sengen Park overlook. This viewpoint comprises over 600 cherry blossom trees with a beautiful red and green pagoda and, weather permitting, a stunning view of the iconic Mount Fuji. From Tokyo, we'll travel to Hiroshima by Shinkansen, Japanese bullet train, at speeds reaching up to 300 km/h! The city's Atom Bomb Dome, Peace Park and Memorial Museum are a moving and solemn reminder of World War II. We will then visit Miyajima Island, home to the floating red torii gate at Itsukushima Shrine. After that, we head to the ancient capital of Kyoto to wander the Nishiki Market shopping district, where traditional and modern storefronts compete for your attention. The next day, we'll take a train to Nara to see the giant Buddha statue, more sakura, and roaming Sika deer. Finally, we'll spend our last day in the vibrant city of Osaka, enjoying more cherry blossoms at the foot of its famous white and green castle.

Japan - The Far East

Food, Glorious Food

29th March - 9th April 2027 (Part 2)

Japan has some of the best, and most unusual, foods around the world, and each region takes great pride in their local specialties. Whilst in Tokyo, we'll visit a traditional izakaya-style restaurant for dinner together, and of course, some sakura-flavoured treats while out and about. The sushi that we know today originated in Tokyo during the Edo period (1603-1868), so Tokyo can claim this as its local dish! Hiroshima and Osaka are both famous for their unique yet different okonomiyaki styles—in Hiroshima, a thin, egg-based batter is topped with shredded cabbage, noodles, and other toppings, while Osaka's version is a thicker, pancake-like fare, with everything mixed and then cooked together. Osaka is also known for takoyaki, a round dumpling with a piece of octopus inside, topped with a sweet-salty sauce, mayonnaise, and fish flakes. Kyoto and Nara will offer you authentic matcha flavours, but be aware, real matcha is thick, bitter, and doesn't have ice, sweetener or milk added! Most afternoons, we will grab a quick bite to eat at family restaurants or at convenience stores, which are ubiquitous across Japan and a cultural experience of their own. Egg-salad sandwiches and fried chicken are an essential snack for travellers, while iconic vending machines offer a variety of both hot and cold drinks at the push of a button.

**Unfortunately for our gluten-free guests, we cannot guarantee against gluten-free options or preventing cross-contamination, and we highly suggest you bring your own meals and snacks. While vegetarian options are sometimes available, it may not be possible to accommodate all food preferences.*

Sweden ABBA Party

Go Beyond all singing & all dancing

9th - 13th May 2027

For the past two years, Go Beyond has offered an ABBA-themed holiday to Greece. We loved every second of the trips and this year we've decided to carry on the ABBA theme...but we're taking it to the next level! This 5-day break starts with one night in London before flying off to Stockholm in Sweden, the spiritual home of Agnetha, Benny, Björn and Anni-Frid. So, why one night in London? Well, we'll be kicking off this extravaganza by seeing the highly acclaimed ABBA Voyage show at the ABBA Arena, Queen Elizabeth Olympic Park. And, not only that, as after the show we will be dining at the Mamma Mia Party Restaurant! This fabulous eatery is the ideal way to keep the party going as scenes from the film are acted out LIVE all around and singing and dancing is not just allowed but highly encouraged! Following a good night's sleep in a London hotel, we'll then head to the airport to catch our direct flight to Stockholm. Sweden's capital is home to ABBA – The Museum, which has the brilliant tag line of 'Walk In, Dance Out!' Here, we'll get to look back on the group's phenomenal career, view the memorabilia, see the outfits, and even sing on stage with them (well, kind of!). Finally, we'll spend our last full day exploring Stockholm with a boat trip along Lake Mälaren, with a guided tour showing us a little of what this beautiful city has to offer. Then before we know it, it will be time to head home with the only question being, which was better; the ABBA Voyage show and restaurant party in London or the ABBA museum and sightseeing tour of Stockholm?

Beautiful Budapest

Go Beyond and explore the taste of Hungary!

29th May - 5th June 2027

Hungary has long been on our radar and we're delighted to finally welcome it to our list. It's a country steeped in history, tradition and incredible architecture. We'll begin our week by checking into the Nyerges Hotel Termál Superior, the largest thatched-roof hotel in central Europe! Set amongst country gardens on the city outskirts. A guided walking tour of the city will kick things off, allowing us to really immerse ourselves into our surroundings. Plus, seeing as the River Danube flows through the heart of Budapest, we thought it would be a nice idea to enjoy a leisurely river cruise along it, taking in the sites. Budapest has many museums and we've chosen to visit two; the Terror Museum and The Hospital In The Rock Nuclear Bunker Museum. Both delve deep into Hungary's history and tell incredible stories of the horror of war, yet also reveal miraculous tales of heroism, demonstrating the true value of peace. Another big attraction in Budapest are the Széchenyi Thermal Baths. The water is provided by two thermal springs and the backdrop to this amazing facility is just jaw-dropping. We'll be taking a calming dip in the baths whilst savouring the environment, just magical! Finally, after flying, driving, walking, cruising and splashing our way through the trip, we'll end it with a wonderful train journey on the Gyermekvasút Children's Railway Line. As the name suggests it is uniquely operated by children (with adult supervision of course), and is a narrow-gauge line that runs between Széchenyihegy and Hűvösvölgy. With multiple stops en-route, our journey will allow us to see some lesser spotted parts of the city and a lovely way to finish our holiday.

The Stunning Shetlands

A Scottish Islands and wildlife treat!

14th - 21st June 2027

The Shetland Islands are located at the most northern point of the UK, lying between Orkney, the Faroe Islands and much closer to Norway than you'd think! This 7-day holiday will see us taking a flight from London to the Scottish mainland and then a connecting flight to the islands. Once there, we'll check into our accommodation and make this our base for the week. At the heart of this trip we will be learning about these fascinating islands and seeing as much wildlife as we possibly can, so our daily activities will revolve around these themes. We will take advantage of the local knowledge available to us and shall be taking a guided tour around the capital of Lerwick where scenic and historical places of interest shall be highlighted and carefully explained. Also, since The Shetlands comprise several islands, we shall take a boat tour; a great way to explore discover this breathtaking archipelago. There's also The Shetland Museum located at Hay's Dock in Lerwick, which is most certainly worth a visit. As for what wildlife we can expect to see whilst there... well, where do we start! There are numerous varieties of seabirds and marine mammals which either permanently or temporarily make these islands their home. Puffins, otters, orcas and seals are prevalent, as too are gannets, and kittiwakes. Plus, given the time of year we are visiting, porpoises and minke whales can regularly be spotted cruising through the calmer coastal waters. And of course, we couldn't possibly visit the Shetlands without going to see the ponies that will forever be synonymous with the islands. Don't forget your camera on this spectacular wildlife experience in the beautiful Shetlands!

This carefully assembled itinerary will see us embark on a three-city tour without having to set foot on a plane. And there's no way we can visit such a place, without pulling out our own canvas and brushes and trying our hand at a spot of painting too! The second leg of our tour will take us to Paris. This city homes the world famous Musée d'Orsay which boasts two large rooms entirely dedicated to Van Gogh. This will be the focal point for our two-night stay in the capital. Offsetting our Carbon Footprint

Go Beyond Holidays has been taking action to tackle the carbon footprint that we are responsible for each year. In early 2024, we met up with Lea Jacquot-Benson from Positively Touristing, who helps organisations within the tourist industry to calculate and offset their carbon emissions. We have been working with Lea who has set down some guidelines for us to follow. Lea's plan has enabled us to calculate our carbon footprint for 2025 and 2026, as well as a plan on how much money we need to raise to donate to projects that are involved with Carbon Offsetting.

Local Fruit Tree Project

As recommended by Positively Touristing, we have chosen a local partner, close to where Go Beyond directors, Anna and Ian live, in France. We are working with the Parc Naturel Régional du Verdon who have an existing project in place which preserves old varieties of fruits typical of the Verdon region (apples, pears, plums and figs), that make up an important part of the local heritage and biodiversity. The money donated by Go Beyond will help the park to propagate and distribute these traditional varieties by offering trees to local residents of the Verdon region who can plant them in their gardens and help to preserve them. This way, we will be able to visit and see for ourselves the progress that is made and, eventually, we hope to become involved with helping to plant fruit trees. In 2025 we raised a total of €3400.

How will we raise the funds?

The money you pay for your holiday will include a small amount that we will donate to the Parc Naturel Régional de Verdon. Go Beyond will also contribute 50% towards monies raised by funds generated from guests. The money collected in 2027 from the holidays you book, will be used to plant trees in the spring of 2028.

I hope you agree with us, that this is a small price to pay for our carbon emissions that are harmful to the environment that act as an accelerator to climate change. Together we can do our part.

'I wanted to say a big thank you to you, Jasmine, Helen and Chris. Steven very much enjoyed his holiday in Northern Ireland. All the photos and videos were great. It was wonderful seeing him looking so happy. I also wanted to thank Anna for doing a very professional risk management of his specific needs and Kevin who was so kind and helpful on the phone when we were booking. We are so grateful that Steven has been able to go on many Go Beyond holidays as we know how kind and trustworthy all the staff are. We hope he can go on many more!' **Parent of a guest**

'I just want to say what a fantastic holiday Jimmy had. He enjoyed the first part of the holiday, He especially loved the second part with the bog walkways and water ways, forest and the beach, and his day trip to Latvia. He looked so happy and relaxed in the holiday photos and videos. Some great photos and the daily videos were a great way to keep connected. I am so grateful, that Jimmy who is always wanting new adventures but is held back by his disabilities from accessing them, can now travel. Go Beyond has given him the possibility of travelling independently ,but supported, and having experiences that that he couldn't possibly have otherwise. So a 'Big Thank You' to you and your team.' **Parent of a guest**

'As you know from when we first spoke, Jack going away on a holiday without family or staff that he was familiar with was a big leap of faith for us all. It would be an understatement to say that Jack had a fantastic time! He really enjoyed meeting new people and making new friendships. You personally and your team have exceeded our expectations when it has comes to a person-centred approach, this phrase is often used however not always evident. Jack spoke at length about you and all the support staff. He felt everyone was approachable, helpful, and fun to be around. He loved Helen's cooking!. We must highlight Jake and the impact he had on making the trip such a success. Everything we highlighted in advance that Jack would need additional support with was delivered by Jake. Jack coming back with the daily diary that Jake did with Jack is a very special reminder of the holiday, and we appreciate the time taken to do this. It is so reassuring for us a family to know that Jack can do further trips with you with us having the confidence that he will experience new adventures and meet new friends and get the first class support he deserves. And the photos we fantastic. Thanks again Ian.' **Brother of a guest**
